

Then Came You

I thought love was over, then came your love
I was down and out, then came you, from above
Now my dark days are bright
And I want to love you with all my might
Caressing and holding you every day
And showing you my love, in every way
I want to be inside you, for all eternity
Sharing our love together, in sweet serenity
Since you came into my life, I have my back
Not one thing is missing from me now, no lack
Thank you baby, you brought back happiness
And forever in love will we be, in wonderful
togetherness
