

A message to misogynistic, hypocritical, pseudo Christian, patriarchal, xenophobic, homophobic, anti-Semitic, racist old dinosaurs; you are relics from a time that the world has left a long time ago. The party is over. Your time is over. While you raped us we suckled your babies, yet our resilience and strength was fortified. Your mass incarceration efforts of our brothers has amalgamated us. You've marginalized our fathers and our sons can't breathe because of you. But we rise and we flourish. We go higher and achieve the greatness that is a result of our faith and the supernatural power that is inherent in our cosmic Nubian genes. We forgive you for what your forefathers Hitler, DeKlerke, Wallace, Hoover and Trump have done to us and have perpetuated. Your perverted and oppressive ideologies and your methods for our objectification, will die with you. My granddaughter will live in a world where the legacies of the archaic old men who facilitated discriminatory and exclusionary pervasive practices, are dead and will be referenced as distorted antiquity. Your 1000-year reign is over.
